EXPERIENCE

V2RT InsureTech Pvt. Ltd.

April 2022 – Present

Associate Programmer

- Conceptualized and oversaw the implementation of a highly efficient web application for a marine-based cargo claim insurance platform; optimized the claims handling process, resulting in a 30% increase in customer satisfaction and a 25% reduction in processing the claims.
- Utilized ReactJS framework, executed comprehensive testing, and achieved a significant 60% decrease in claim processing time.
- Spearheaded the development of highly customized Microsoft Power BI dashboards, visualizations, and interfaces, resulting in a 40% reduction in customer support issues and a 50% improvement in customer satisfaction scores.
- Developed and produced reusable code components, resulting in a 70% reduction in development time and enhancing scalability and flexibility for future projects. Executed a comprehensive unit testing strategy for components, decreasing software bugs and enhancing code reliability.

Brainvalley Software Pvt. Ltd.

Nov 2021 – April 2022

Front End Developer Intern

- Build component-based web pages using ReactJs.
- Leveraged HTML5, CSS3, and JavaScript to create interactive elements that improved user experience.
- Implemented a responsive design that ensured the web application was accessible on all devices.
- Collaborated with cross-functional teams to identify customer requirements and develop technical solutions.

Thanga Technology

Sep 2021 – Dec 2021

WordPress Developer Intern

- Optimized web pages using WordPress, implementing SEO best practices and achieving a 25% increase in organic search traffic and a 15% improvement in keyword ranking positions.
- Managed end-to-end implementation of CMS, overseeing theme customization, resulting in a seamless user experience and effectively boosting website conversions.

PROJECTS

Web-based Chatting Application—React, Firebase, MongoDB

- Designed a real-time chat functionality, facilitated by efficient messaging protocols, enabling users to exchange information instantaneously using Firebase real-time Database to provide users with a responsive chat experience.
- Integrated user authentication using Firebase Authentication, ensuring secure and personalized chat sessions.

To-Do List App—React, HTML, and CSS

- Developed a feature-rich Todo application using React, showcasing proficiency in front-end development and state management.
- Leveraged React's state and context to efficiently manage task data and application state and task creation, editing, deletion, and marking as complete functionalities. Incorporated drag-and-drop functionality for task reordering, showcasing advanced user interactions.

TECHNICAL SKILLS

Languages: JavaScript, HTML5/CSS3

Frameworks/Libraries: React.js, Next.js, Express.js, Bootstrap, ES6+.

Database: MongoDB

Data Visualization: PowerBI.
