

The Wipro team explained a total of 13 topics in 2 days which included User Registration, Apply EC, Copy of Marriage Extract, Refund of Unavailed Services-E-Payment, Society Registration, Firm Registration, E-Token, Guideline Value, Apply for Correction, cc of Document, New Document, and Special Marriage Hindu Marriage. We edited and submitted a total of 13 videos for these topics.

After receiving script and audio corrections in a video conference, we made the necessary changes and submitted the videos. The first video, User Registration, required multiple script corrections that we received through WhatsApp. After making the necessary changes, we uploaded it on YouTube. We then received script corrections and re-edited 12 more videos, which we submitted for approval. Minor script corrections were made for four videos, Apply EC, Copy of Marriage Extract, Refund of Unavailed Services-E-Payment, and Apply EC, before we uploaded them on YouTube.

We edited and submitted eight more videos, out of which five were approved after minor audio and script corrections. These videos were Society Registration, Firm Registration, E-Payment, E-Token, and Guideline Value.

During the assembly, the percentage of tax changed, and we had to remove nine videos from YouTube. These were Apply EC, Copy of Marriage Extract, Refund of Unavailed Services-E-Payment, Apply EC, Society Registration, Firm Registration, E-Payment, E-Token, and Guideline Value. We screen recorded the videos again, re-edited them, and made audio corrections before uploading them on YouTube.

We received script corrections for five videos through WhatsApp, namely Apply for Correction, cc of Document, New Document, Special Marriage, and Hindu Marriage. After making the necessary changes, we submitted three videos, which were uploaded on YouTube. We received corrections for three more videos through a phone call, and a new script was sent through WhatsApp new audio recorded and. Finally, all the videos were uploaded.
